

Chem 103, Spring 2006  
Prof. Sevian  
Assignment 12

**Homework Assignment**

 Chapter 9: problems 3, 6, 9, 17, 19, 21, 25, 27, 31, 35, 39, 47, 51, 55, 65, 67

Answers to the red problems in the book are in the back of the book. Worked out solutions to all the problems are in the Student Solutions Manual, which you have access to if you purchased the bundle from the bookstore. Otherwise, you can use one of the paper copies of the Student Solutions Manual on reserve at Healey Library. Only the red problems are assigned. However, to study for exams I encourage you to try the other problems also.

**Announcements**

 The final exam for this course is scheduled for Monday, May 15, 8:00-11:00 am. The exam location has been changed from what was originally posted on the Registrar's website. The exam will be in Snowden Auditorium (W-1-088), not in S-1-006 (small science auditorium, where we meet for lecture). Please look up the final exam times (can be found at <http://www.umb.edu/students/registrar/>) for your other courses and find out if you have any scheduling conflicts that you need to work out with your professors.
