

Homework Problems Assigned from the Text (5th Edition)

The problems that are marked with an asterisk refer to material that was not covered at length in lecture. You are expected to know this material.

There are problems at the end of the chapter 18 that do not relate to material addressed in this class. The problem set given here are the problems from the book that relate to what is emphasized in this course.

In almost all cases it is best to make a good effort at doing all of these problems before consulting the answer key.
