

Chapter 23 Carbohydrate Metabolism Assignment

Read Chapter 23. Before and after reading section 23.3, watch the following video.

<http://www.1lec.com/Biochemistry/How%20Glycolysis%20Work/index.html>

In this section of the course, it is useful to know the terms *genesis* and *lysis*. Both come from Ancient Greek. *Genesis* means creation, and *lysis* means to take apart. The word *generates* comes from *genesis*. There are many others. Except for *analysis*, most of the words derived from *lysis* are fairly obscure. *Analysis* is taking something apart when studying it.

Assigned Problems

23.18, 23.22, 23.27, 23.28, 23.32, 23.39, 23.43, 23.44 All of the questions relating to Diabetes. 23.65, 23.66, 23.68, 23.73
